Download and install Zoom Desktop Client

Although you can use **Zoom** straight from your web browser, it is advisable to actually download the free Desktop Client to ensure a smoother **Zoom** experience.

1. Go to https://**Zoom**.us/support/download on your device. *If you open this on an Android or iPhone, you will open the App Store to download the Desktop Client.*
2. If using **Internet Explorer**, select **Run**. In **Google Chrome** and most other browsers, select **Download.**
3. An ***Account control*** message will probably be the next screen you see asking to allow **Zoom** to make changes to your computer. Select **Yes** so that the program can access your microphone and speakers.
4. Complete the installation by following any additional instructions that pop-up.

— If you have **Outlook** installed on your device, it is possible through the **Outlook Plug-in** to link **Zoom** directly to **Outlook**. Follow the above download instructions and in #2 select **ZoomOutlookPluginSetup** and follow the on-screen prompts.

— If you have **Firefox** installed on your device, it is possible through the **Firefox Plug-in** to link **Zoom** directly to **Firefox**. Follow the above download instructions and in #2 select **addons.mozilla.org/en-us/firefox/** and follow the on-screen prompts to **Zoom Scheduler** and choose the **Add to Firefox** button.

— If you have **Google Chrome** installed on your device, it is possible through the **Chrome Plug-in** to link **Zoom** directly to **Chrome**. Follow the above download instructions and in #2 select **chrome.google.com/webstore** and follow the on-screen prompts to locate **Zoom Scheduler** and choose **Add to Chrome**. Choose the **Add app** button.
